

The Analysis Forums

A new vision

A new group will aim to help and inform companies in their order-to-cash work

Laurie Beagle

Managing director, Forums International

lauriebeagle@forumsinternational.co.uk

On the 22 September 2021 we will launch the new O2C Process Improvement Group; including: ERP, third Party Solutions, SAP, Automation and so on.

Background

Our SAP User Group was originally formed in 1998 and has helped hundreds of firms who were implementing, upgrading, or wanting to make better use of their systems.

Objectives

The new O2C PI Forum extends the focus and replaces the SAP User Group with a new format that covers the whole O2C cycle whatever system you use. Also, whatever your future plans and challenges are. The forum is open to all levels of users.

The meetings will be delivered initially via Zoom so you can attend from your location. The format will be informative with the accent on providing practical solutions to the questions tabled by the attendees.

The forum will be supported by our INFO-Hub system that brings together the members, suppliers and partners on a 24/7 basis so there will, always be an answer at hand.

Supported by the top vendors in their specific fields:

They will provide invaluable knowledge of SAP, Invoice automation, AI and RPA Technology, Digitising core business processes, Cloud solutions, Cash allocation, Online payments, O2C processes, credit, collections and dispute management, training, outsourcing and so on.

Attend this first meeting for free.

To learn more about the O2C Process Improvement Forum please go to O2C: Order2Cash Process Improvement Group – Credit & Finance – Forums International.

SME – Supporting growth and survival

A new style collaboration programme has been launched with leading

The new O2C PI Forum extends the focus and replaces the SAP User Group with a new format that covers the whole O2C cycle whatever system you use. Also, whatever your future plans and challenges are. The forum is open to all levels of users

industry experts that has been designed to help and support SMEs as we all navigate the uncharted waters post-Covid.

This programme will give SMEs the information and practical help they need. Also aid networking with their peers and the engagement with subject matter experts in a 'no sell' environment.

Forums International has joined forces with key drivers from the credit industry to create the SME: Supporting Growth & Survival programme. Leading experts from Forums International, Begbies Traynor, CoCredo, Grow With Us, Martyn Brooke Ltd, and Thornbury Collections will help and support the SME community as businesses pivot, change and grow.

Using new style forums, events, and social media to bring together SME businesses and experts to help deliver the title of the project 'Supporting Growth & Survival'.

Benefits of membership will include:

- Regular webinars.
- Forum events hearing from leading industry experts.
- A dedicated LinkedIn Group to share knowledge and get the help and support your business needs.
- Sharing of industry news and regulatory information.
- Resources and downloads with useful information.
- And much more.

Join our LinkedIn Group – SME:

Supporting Growth & Survival (please ensure you are logged into a LinkedIn account on your device when clicking this link). The first Virtual SME Forum will be on the 29 September 2021

New corporate partners

We are very pleased to welcome two new Corporate Partners to the team. Atradius Collections – Credit Professionals Forum (CPF) Global; Credit Recoveries – IT Distributors and Resellers Forum (DRF); and Pharma and Healthcare Suppliers Forum (PHS). **CCR**
